

ENVIRONMENTAL POLICY

INTRODUCTION

At Titan ICT we are committed to managing our environmental impact in a responsible and professional manner.

Guided by our corporate *Safety Health and Environmental* (SHE) plan, Titan ICT proactively assesses our environmental impact, seeking ways to minimise any negative impact of its operations.

RESPONSIBILITIES

Through open engagement with our employees, contractors and subcontractors, Titan ICT encourages all stakeholders to use resources efficiently, minimising our environmental footprint.

We are committed to continuously monitoring all aspects of our work to achieve minimal impact on the environment.

Titan ICT commits to;

- promoting a culture of environmental responsibility such that all staff and our contractors are aware of the impact that our work practices have on the environment.
- work with our supply chain to gain mutual benefits by incorporating environmentally sustainable goals into all business processes.
- reduce wastage and dispose of waste thoughtfully through the attitude of "reducing, recycling and reusing. "
- encourage innovative environmental practices and implement a continuous improvement process of our environmental management system.
- provide information and training to all Titan ICT personnel to promote awareness of their responsibilities, both legal and moral, of the environmental impact of our activities.
- comply with mandatory environmental laws and regulations, actively seeking ways to improve our compliance within the spirit of the legislation.

The senior management team of Titan ICT are responsible for the communication and implementation of this policy.
